AMENDMENT AND REPLY TO FINAL OFFICE ACTION

Commissioner for Patents
Box AF
Washington, D.C. 20231

Sir:

This response is being filed in response to the Office Action dated October 4, 2002.

Applicant thanks Examiner Patel for his prompt and efficient attention to this case and
appreciates the Examiner's finding that claims 6, 8 and 9 contain allowable subject matter.

Reconsideration of the subject patent application in light of the present Amendment and Reply,
which raises no new issues, is respectfully requested. Authorization is hereby given to charge
any deficiency in fees or any other fees in connection with the subject patent application to our
Deposit Account No. 23-0920.

In the Claims

32. Please cancel claims 1-30 without prejudice and enter new independent claims 31-33.

31. A circuit board adapted to suppress electromagnetic interference, the circuit board
comprising:

an electrically conductive transmission layer defining a circuit pattern;

a ferrite powder containing medium consisting essentially of a ferrite powder spaced from
the electrically conductive transmission layer where the medium has an effective thickness of
